Education

Techno Main Salt Lake

Bachelor of Technology in Information Technology

Sep. 2019 – May 2023

Kolkata, West Bengal

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL

Frameworks & Libraries: React.js, React Native, Node.js, Express.js, Redux

Databases: PostgreSQL, MySQL, MongoDB

Tools & Platforms: Git, GitHub, Bitbucket, JIRA, Postman, Figma, Vite, Cursor AI, Webpack

Experience

Cleartrip (Flipkart)

Aug 2025 – Present

Frontend Developer (UI) – AIR

Bangalore, India

- Involved in major feature work for **real-time flight tracking**, building scalable UI components in a short time with appropriate test cases across mobile and desktop platforms.
- Led security enhancements resulting in the resolution of **50+ issues** across mobile and desktop repositories by mitigating **Regular Expression Denial of Service (ReDoS)** vulnerabilities, preventing catastrophic backtracking, securing application URLs, and ensuring encryption of sensitive data.
- Currently part of the **React Native migration** team, migrating mobile websites to React Native applications.
- As part of engineering excellence initiatives, led **TypeScript hygiene improvements** in the mobile codebase using **Cursor AI** to enhance developer productivity.

Qicpic Innovation Pvt. Ltd

Dec 2024 – May 2025

Full Stack Developer

Bangalore, India

- Built scalable backend APIs using **Node.js**, **Express.js**, and **PostgreSQL**.
- Integrated **payment gateways**, **WebSocket-based real-time updates**, and **Kafka** for inter-service communication.
- Developed internal dashboards including DAP and Trainer Panel using **React.js** and **Redux**.
- Deployed services and implemented secure image handling using encryption and decryption.
- Collaborated closely with frontend, design, and product teams to deliver features with seamless UX.

Projects

Scheduler App | HTML, CSS, JavaScript, Google Calendar API, OAuth | Live Demo | GitHub

2024

- Built a meeting scheduling platform enabling admins to manage availability and users to book, view, and cancel meetings.
- Integrated **Google Calendar API** with **OAuth** for secure, real-time calendar synchronization.
- Implemented responsive and accessible UI using **HTML**, **CSS**, and **JavaScript**.
- Collaborated with a 2-member team using Git and GitHub for version control and feature integration.

Learners Hub | HTML5, CSS3, JavaScript | Live Demo | GitHub

2023

- Developed a responsive educational platform with a strong focus on clean UI and accessibility.
- Built reusable UI components and improved cross-device user experience.
- Collaborated with team members using Git for code integration and feature delivery.
